

She's lucky  
her Sithrah is around  
to protect her.

Protect me?!

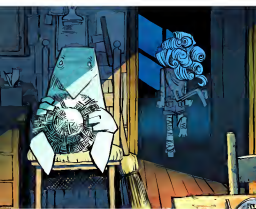

He just  
sits around  
and does  
**NOTHING!**

He doesn't  
care what  
happens  
to me!

Vonna, sweetie --  
don't say that...

Dino stammers.

"Oversands. We, uh...  
I came over on a deep shipping  
rig. It's not a very exciting story."

He wants to talk about anything else, but--

"You ever been to Light City? Phoebe's always wanted to go. I guess I should take her before we're too old to travel.

You know anything about it?"

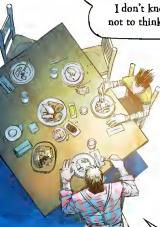

"How's that saying go?"  
Dino's throat tightens.

"Ignorance is bliss?"

"Naw, you don't really believe that, do you?"

HA ha--

I don't know. I try not to think about it.

Where's your family? They cross over with you?

They're good!  
They, uh...

They stayed  
behind.

SCRATCH  
SCRATCH

Yeah.  
I talk to 'em  
all the time.

Talking isn't  
the same as seeing,  
though, is it?

I can't imagine being  
away from Phoebe for  
more than a few days.  
It'd just kill me.

Yeah, well...

**Man.** I am  
so full and ready  
to pass out.

Your wife makes  
the best food I've  
ever tasted.

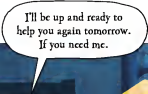

I am a  
lucky man.

Thanks again.  
For everything.

I'll be up and ready to  
help you again tomorrow.  
If you need me.
